2026 Town of Chapel Hill Community Survey
Executive Summary

Purpose

In April and May of 2026, ETC Institute conducted a community survey on behalf of the Town of Chapel Hill to gather resident feedback on Town services, priorities, and overall quality of life. The results of the survey are intended to support strategic planning, budget decisions, and service delivery improvements. This marks the fourth time ETC Institute has administered a community survey for the Town of Chapel Hill, with the first conducted in 2018.

Methodology

A five-page survey, accompanied by a cover letter and a postage-paid return envelope, was mailed to a randomly selected sample of households in Chapel Hill. The cover letter outlined the survey's purpose and encouraged recipients to complete and return it by mail or participate online at townofchapelhillsurvey.org.

To ensure the integrity of the random sample, respondents who completed the survey online were asked to provide their home address, which was matched against the original sample file. Responses from individuals not included in the random sample were excluded from the final dataset. To further boost participation, ETC Institute conducted follow-up outreach to sampled households and promoted the survey through targeted social media advertisements on platforms such as Facebook and Instagram.

The goal of the survey was to obtain at least 400 completed responses. This target was exceeded, with a total of 421 residents completing the survey. The results for the random sample of 421 residents have a precision of at least ±4.76% at the 95% level of confidence.

Notes on Reporting:

The results presented in this report are based on statistically valid data and are representative of Chapel Hill households. For reporting purposes, satisfaction results are shown as the combined percentage of respondents who rated services as "very satisfied" or "satisfied," excluding "don't know" responses.

This report contains:

- An executive summary of the methodology and major findings.
- Charts showing the overall results for most questions on the survey.
- Benchmarking data that show how the results for Chapel Hill compared to other communities.
- Charts showing the trends from this survey compared to the survey in 2024 and 2022/21.
- Importance-Satisfaction analysis to determine resident priorities.
- Tables that show the results of the random sample for each question on the survey.
- A copy of the survey instrument.

2026 Town of Chapel Hill Community Survey
Executive Summary

Overview

Perceptions of Chapel Hill

Residents of Chapel Hill continue to report very positive perceptions of the community and a high quality of life. Overall ratings were strongest for Chapel Hill as a place to live, raise children, and the overall quality of life, with more than nine out of ten residents rating each positively. Residents also expressed strong agreement that Chapel Hill is a welcoming community and a desirable place to retire, while ratings for Chapel Hill as a place to work were also favorable. Comparatively lower, though still generally positive, ratings were observed for Chapel Hill as a place to do business, indicating an opportunity to further strengthen the Town's business environment. Residents also expressed high levels of satisfaction with key community attributes, particularly access to parks and green space, the overall appearance of the Town, and the availability of cultural activities, the arts, festivals, and community events.

Among the community perception measures, consideration of future generations received the lowest rating, suggesting residents would like to see greater emphasis on long-term planning and sustainability. Overall, these findings indicate that Chapel Hill is viewed as an attractive, welcoming community that offers an exceptional quality of life while highlighting opportunities to strengthen long-range planning and support for the local business environment.

Major Categories of Service

Residents expressed high levels of satisfaction with many of the major services provided by the Town of Chapel Hill. The highest-rated service categories were public library services, trash collection services, fire services, police services, parks, greenways, and recreation facilities, Chapel Hill Transit, and Parks & Recreation programs and camps. Residents also gave favorable ratings to public art, yard trimmings collection services, and the Town's transportation infrastructure. Comparatively lower levels of satisfaction were observed for planning and development services, management of stormwater runoff, building permit services, management of traffic flow, and Town code and ordinance enforcement, highlighting opportunities for continued improvement in growth management and transportation-related services.

When residents were asked to identify the services that should receive the greatest emphasis from Town leaders, they clearly prioritized transportation infrastructure, management of stormwater runoff, management of traffic flow, parks and greenways, and planning and development services. These findings indicate that while residents are generally satisfied with the Town's core services, they place the greatest emphasis on maintaining and improving transportation infrastructure, addressing mobility and stormwater challenges, and planning for future growth.

Public Safety

Public safety continues to be one of the Town of Chapel Hill's strongest performing service areas. Residents expressed particularly high levels of satisfaction with safety and security in their neighborhood (89%), overall feeling of safety in the Town (88%), fire safety, education, and outreach (88%), and police safety, education, and outreach (83%). Strong ratings were also given to emergency management safety, education, and outreach (80%) and residents' feeling of safety while traveling on Town roads, sidewalks, greenways, and bike facilities (71%). Although still viewed positively overall, the availability of crime data and police records received the lowest satisfaction rating among the public safety measures (63%).

When residents were asked to identify the public safety services that should receive the greatest emphasis from Town leaders, they clearly prioritized improving safety while traveling on Town roads, sidewalks, greenways, and bike facilities (50%), followed by maintaining the overall feeling of safety in the Town (42%). Police safety, education, and outreach (18%), neighborhood safety and security (18%), and emergency management safety and outreach (17%) were identified as secondary priorities. These findings suggest that while residents have strong confidence in the Town's overall public safety services, they place the greatest emphasis on improving transportation-related safety while maintaining Chapel Hill's high standard of community safety.

Transportation and Connectivity

Transportation and connectivity emerged as one of the Town's greatest opportunities for continued investment. Residents expressed the highest levels of satisfaction with the ease of using Chapel Hill Transit (77%), ease of vehicle travel outside of peak travel times (75%), snow removal on Town streets (69%), and the availability of greenways and multi-use paths (69%). Favorable ratings were also reported for the adequacy of street lighting, ease of walking, availability of sidewalks, and ease of travel by car. Comparatively lower levels of satisfaction were observed for ease of vehicle travel during peak travel times (29%), electric vehicle charging stations (33%), ease of bicycling (40%), availability of parking downtown (46%), and on-street bicycle facilities (47%), highlighting the challenges associated with congestion, parking, and multimodal transportation.

When residents were asked which transportation and connectivity services should receive the greatest emphasis from Town leaders, they clearly prioritized improving ease of vehicle travel during morning and evening peak travel times (32%), followed by increasing the availability of downtown parking (25%), improving the connectivity of greenways and multi-use paths (23%), and expanding the availability of sidewalks (20%). Residents also identified Chapel Hill Transit, walkability, bicycling, and multimodal transportation as important priorities.

Public Facilities

Residents generally reported positive perceptions of the Town's public facilities and maintenance services. The highest-rated areas included landscaping in parks, medians, and other public areas (77%), maintenance of Town buildings and facilities (77%), cleanliness of streets and public areas (76%), maintenance of Downtown Chapel Hill (72%), and access to Town facilities and services for seniors (74%). Residents also expressed favorable opinions regarding access for children, maintenance of sidewalks and streets, and maintenance of vegetation along rights-of-way and sidewalks. Comparatively lower ratings were observed for access to Town facilities and services for persons with disabilities (56%) and access for teens (57%), indicating opportunities to improve accessibility and services for these populations.

When residents were asked which public facilities and maintenance services should receive the greatest emphasis from Town leaders, they identified maintenance of streets (27%), cleanliness of streets and public areas (23%), maintenance of sidewalks (23%), and maintenance of Downtown Chapel Hill (22%) as the highest priorities. Residents also placed importance on maintaining vegetation along rights-of-way and improving accessibility for persons with disabilities. These findings indicate that while residents are generally satisfied with the Town's maintenance efforts, they continue to place the greatest emphasis on preserving core infrastructure, maintaining clean public spaces, and ensuring Town facilities remain accessible to all residents.

Town Communication

Residents rely on a variety of sources to stay informed about Town news and activities, with the Town's weekly email newsletter (Our Town) (59%) and the Town website (56%) serving as the most used communication channels. When asked which communication channels they preferred most, residents clearly favored the Our Town weekly email newsletter (45%) and the Town website (33%), followed by social media (17%) and newspapers (13%).

Residents generally expressed positive opinions of the Town's communication efforts. The highest-rated aspects of communication were access to timely emergency information (74%), the quality of the Our Town weekly email newsletter (72%), Town information provided in languages other than English and in understandable formats (66%), availability of information about Town programs and services (66%), and the usefulness of the Town website (64%). Comparatively lower ratings were observed for the overall effectiveness of Town communication with the public (55%), the quality of transparent, trusted, and accurate communication (50%), quality of the Town's engagement with residents (49%), and access to the Mayor and Town Council (54%), suggesting opportunities to strengthen public engagement and transparency.

When residents were asked which communication services should receive the greatest emphasis from Town leaders, they identified improving the availability of information about Town programs and services (24%), providing transparent, trusted, and accurate communication (23%), and improving the overall effectiveness of communication with the public (23%) as the highest priorities. Access to timely emergency information (20%) and improvements to the Town website (18%) also ranked among the top priorities. Overall, these findings indicate that residents value the Town's existing communication channels but would like to see continued investments in transparency, public engagement, and ensuring residents have timely access to accurate information about Town programs and services.

Importance-Satisfaction Analysis

ETC Institute's Importance–Satisfaction (I–S) Analysis **(Section 4)** identifies the services that will have the greatest impact on overall resident satisfaction by evaluating both the importance of each service and current satisfaction levels.

Very High Priority Areas

Three service areas were identified as very high priorities for the Town:

- Management of stormwater runoff (34% importance, 30% satisfaction)
- Management of traffic flow (30% importance, 33% satisfaction)
- Ease of vehicle travel during morning and evening peak times (32% importance, 29% satisfaction)

High Priority Areas

- Planning and development services (27% importance, 28% satisfaction)
- Transportation infrastructure (39% importance, 61% satisfaction)
- Feeling of safety while traveling on Town roads, sidewalks, greenways, and bike facilities (50% importance, 71% satisfaction)
- Availability of downtown parking (25% importance, 46% satisfaction)
- Connectivity of greenways and multi-use paths (23% importance, 53% satisfaction)
- Ease of bicycling in Chapel Hill (17% importance, 40% satisfaction)
- Quality of transparent, trusted, and accurate Town communication (23% importance, 50% satisfaction)
- Overall effectiveness of Town communication with the public (23% importance, 55% satisfaction)

Areas Meeting or Exceeding Expectations

Many of the Town's core services including public library services, trash collection, fire services, police services, parks and recreation, Chapel Hill Transit, and public facilities maintenance received high satisfaction ratings and were not identified as high priorities in the I-S Analysis. This indicates that the Town is meeting or exceeding resident expectations in these areas and should continue maintaining current service levels.

Importance-Satisfaction Summary

Overall, the Importance-Satisfaction Analysis indicates that Chapel Hill performs very well across many core municipal services. The greatest opportunities to improve overall resident satisfaction are focused on transportation and mobility, stormwater management, planning and development, and Town communication. Specifically, residents identified managing traffic flow, improving travel during peak hours, strengthening transportation infrastructure, enhancing stormwater management, expanding bicycle and parking infrastructure, and improving the transparency and effectiveness of Town communication as the areas where additional investment is most likely to increase overall satisfaction.

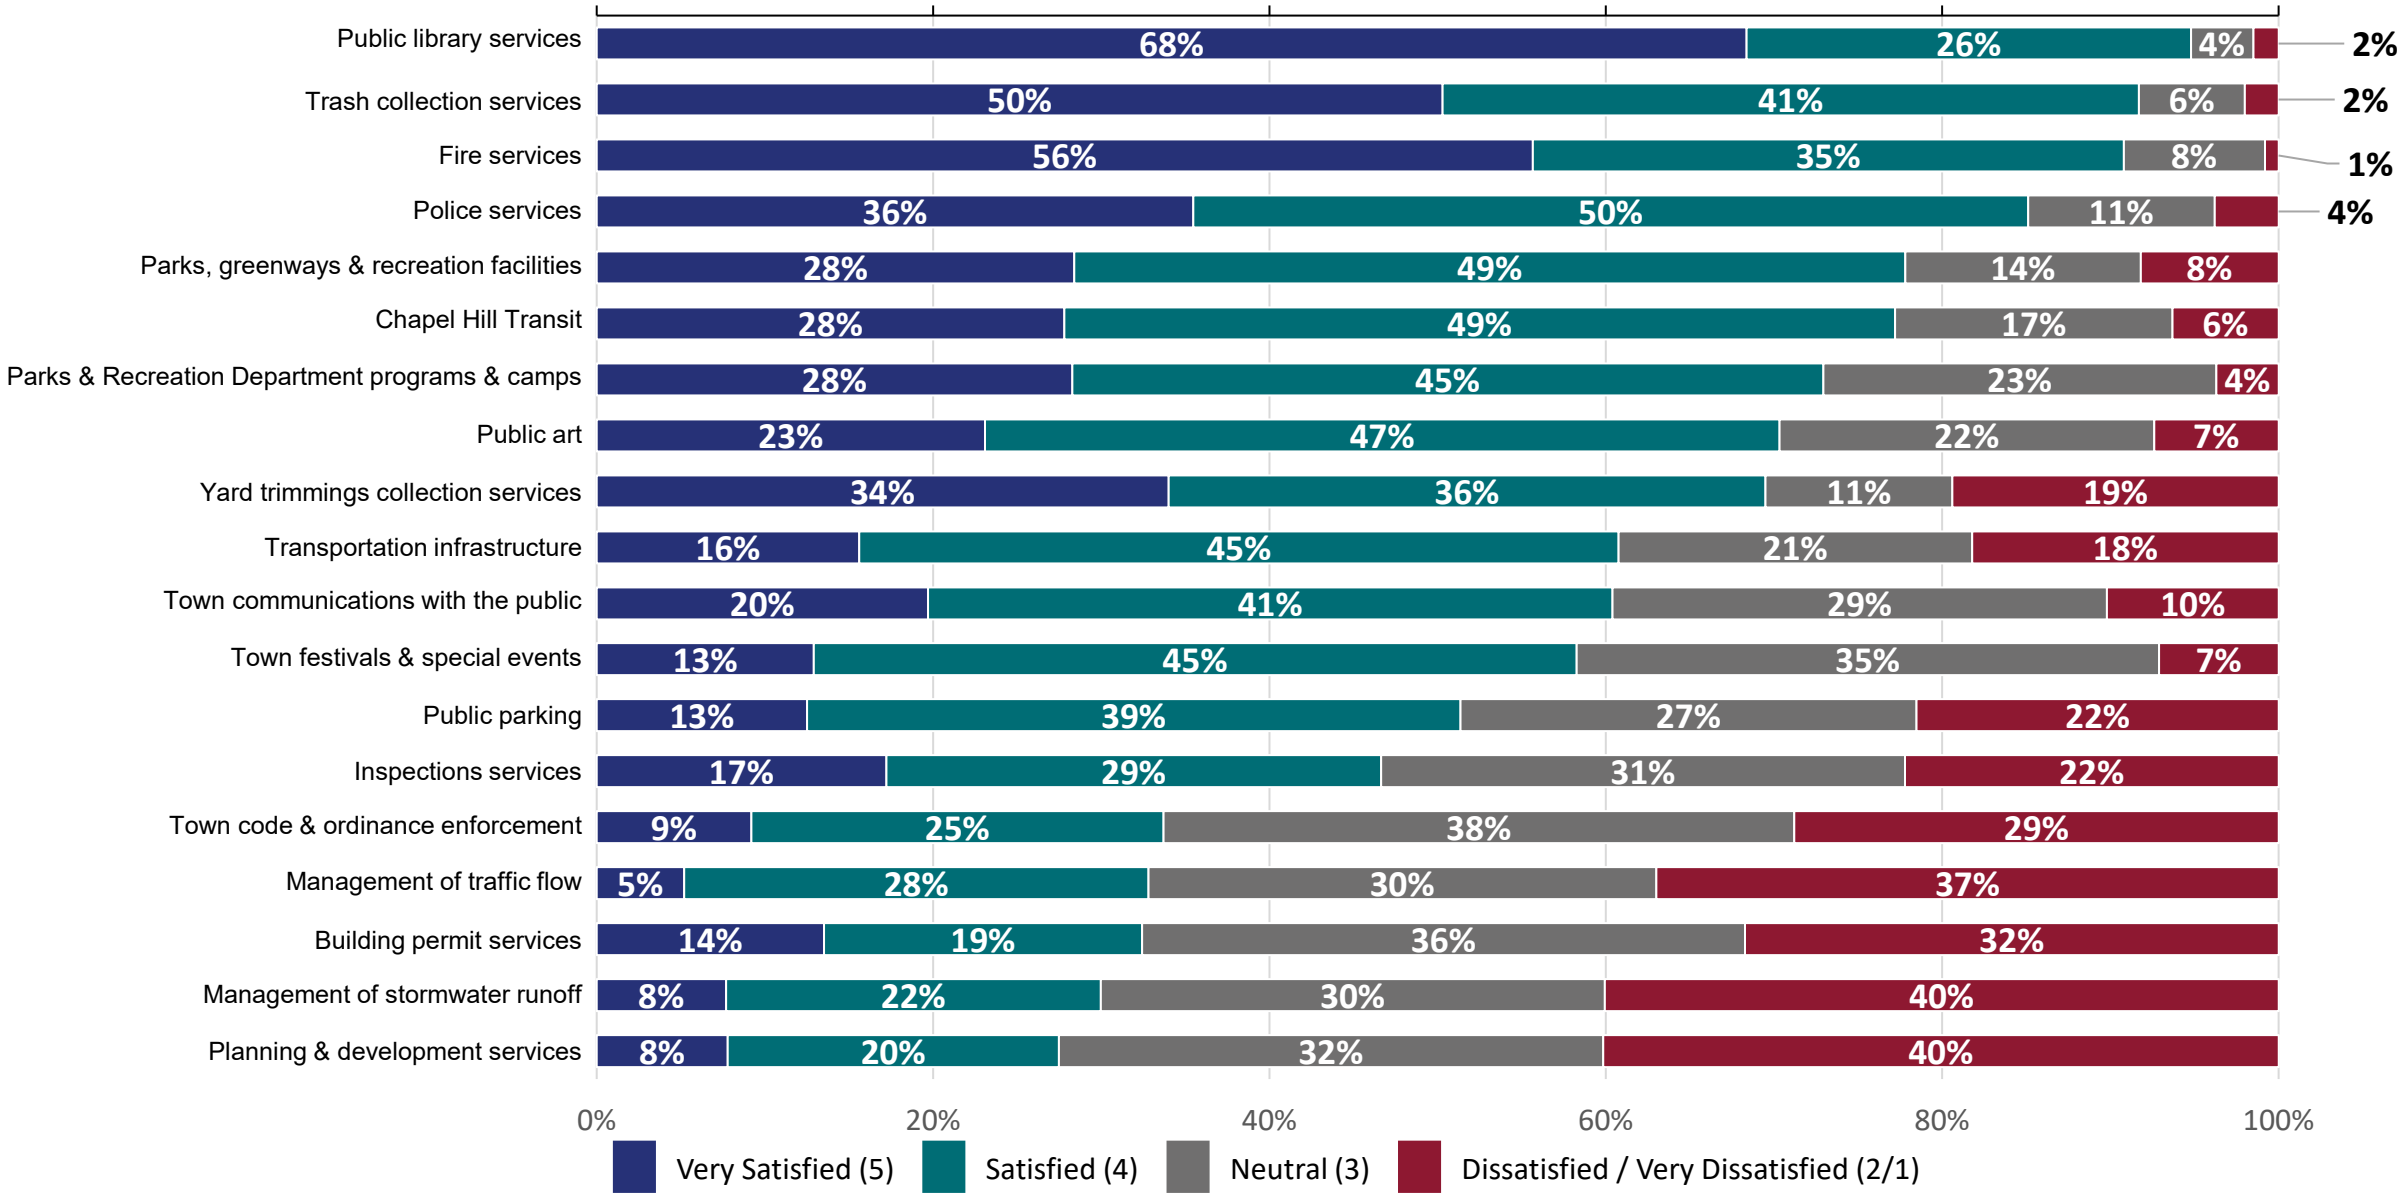

Conclusion

The 2026 Community Survey shows that Chapel Hill continues to provide an exceptional quality of life and high-quality municipal services. Residents expressed particularly strong satisfaction with the Town's parks, public safety, library services, transit, and overall community character. At the same time, the survey identified transportation and mobility, stormwater management, planning and development, and Town communication as the greatest opportunities for improvement. By maintaining its strengths while focusing investments in these priority areas, Chapel Hill can continue to enhance resident satisfaction and preserve the high quality of life that residents value.

1 Charts and Graphs

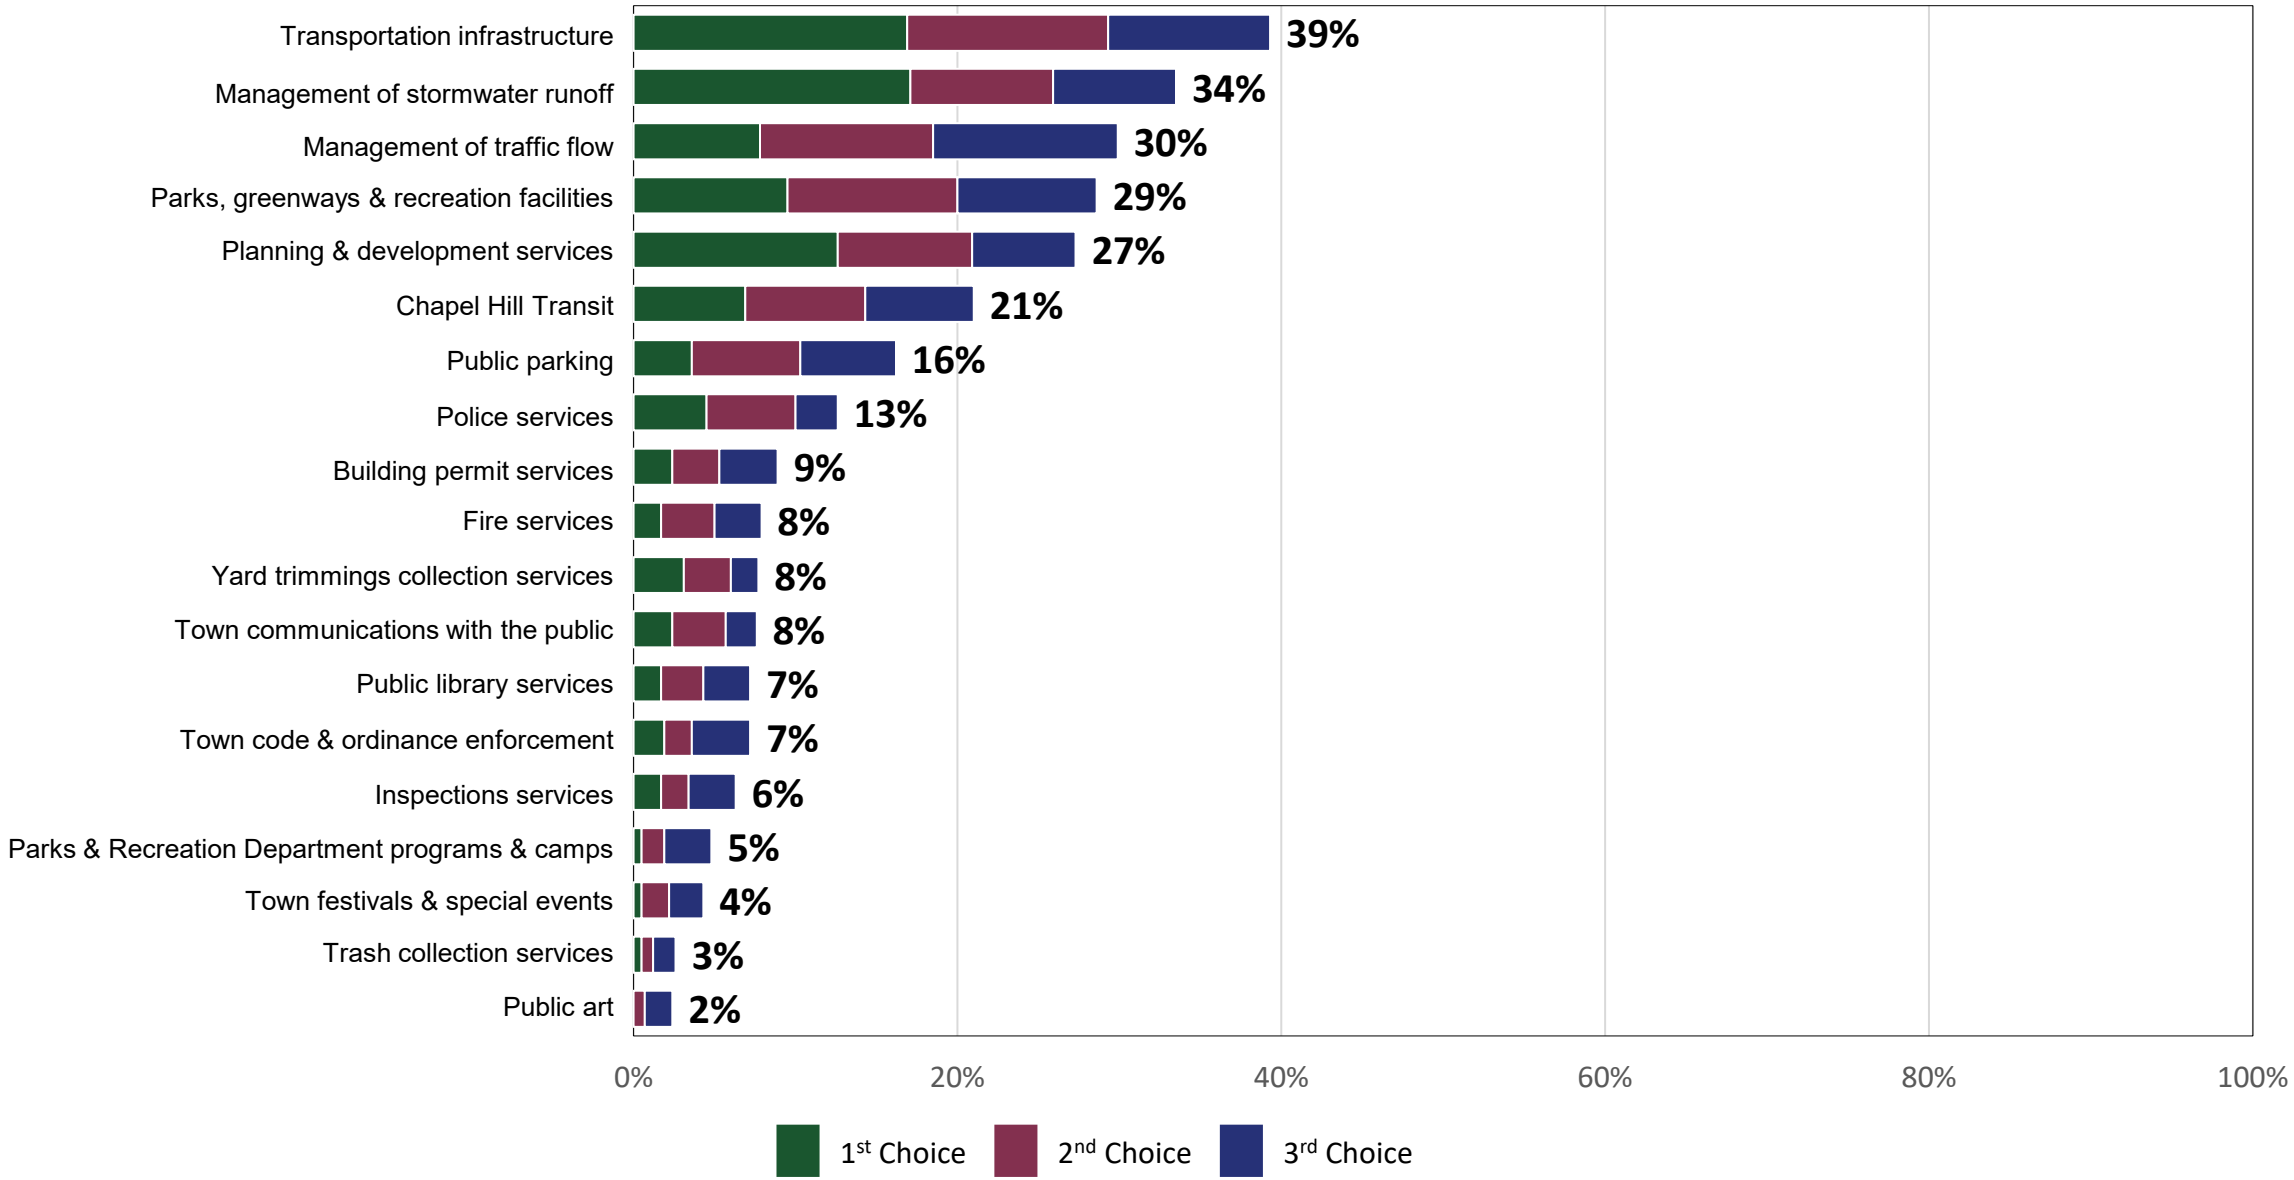

Q1. Major Categories Of Service

by percentage of respondents (excluding don't know)

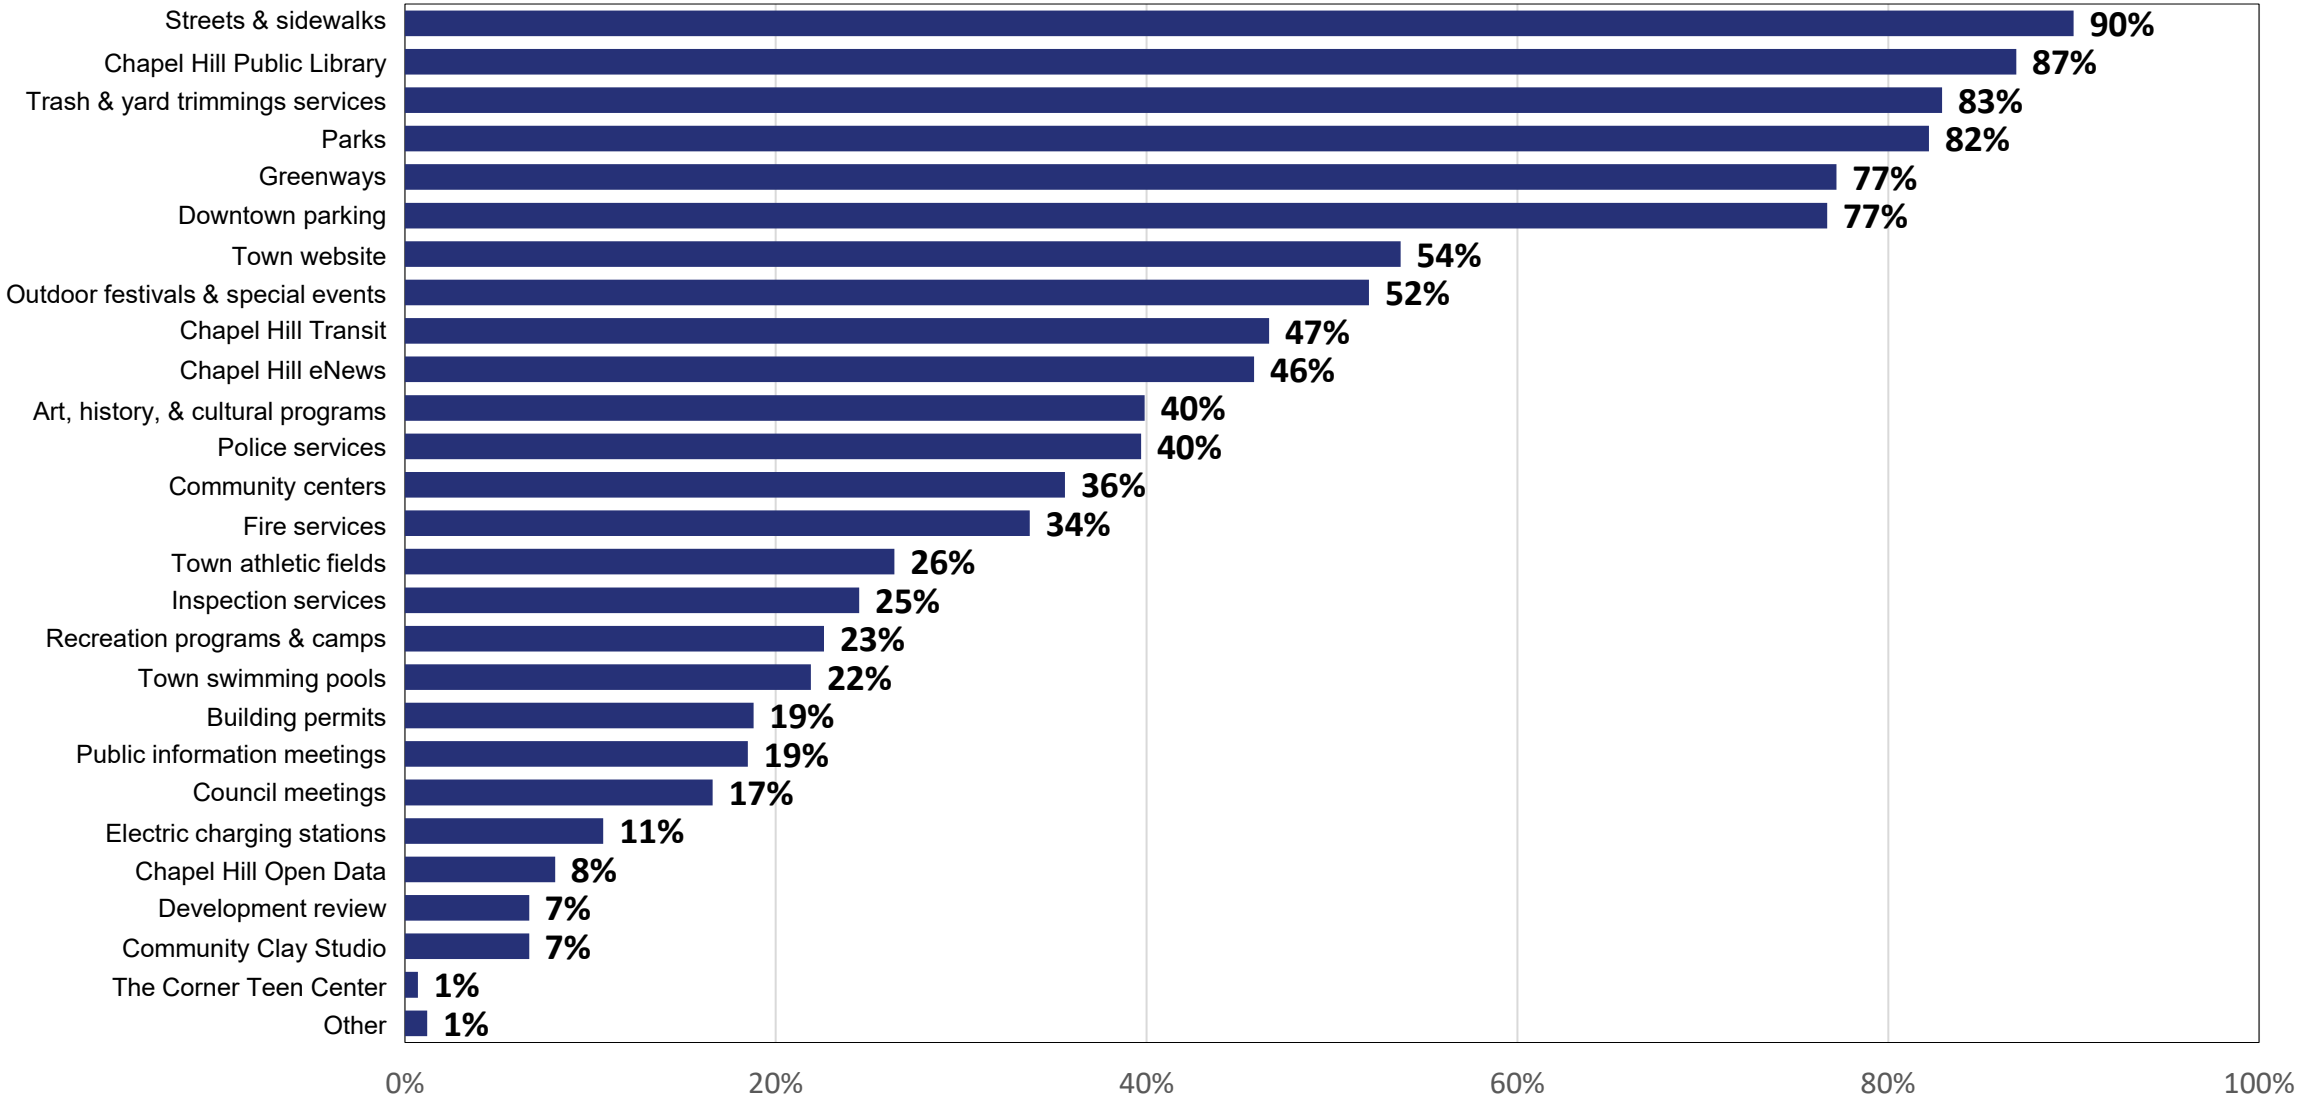

Q2. Which Three Major Categories Of Services Should Receive The Most Emphasis From Town Leaders?

by percentage of respondents (excluding don't know)

Q31. Would You Say Your Total Annual Household Income Is...

by percentage of respondents

Q32. What Is The Highest Level Of Education That You Have Completed?

by percentage of respondents (multiple selections could be made)

2 Benchmarking Analysis

Benchmarking Summary

Overview

ETC Institute's *DirectionFinder®* program was originally developed in 1999 to help community leaders use statistically valid community survey data as a tool for making better decisions. Since November 1999, the survey has been administered in more than 300 cities and counties in 49 states. Most participating communities conduct the survey on an annual or biennial basis.

This report includes benchmarking data from two primary sources: (1) a national survey conducted by ETC Institute during the summer of 2025 with a random sample of more than 5,000 residents across the continental United States; and (2) survey results from the Atlantic states from this national survey. The states included in the Atlantic Region are below:

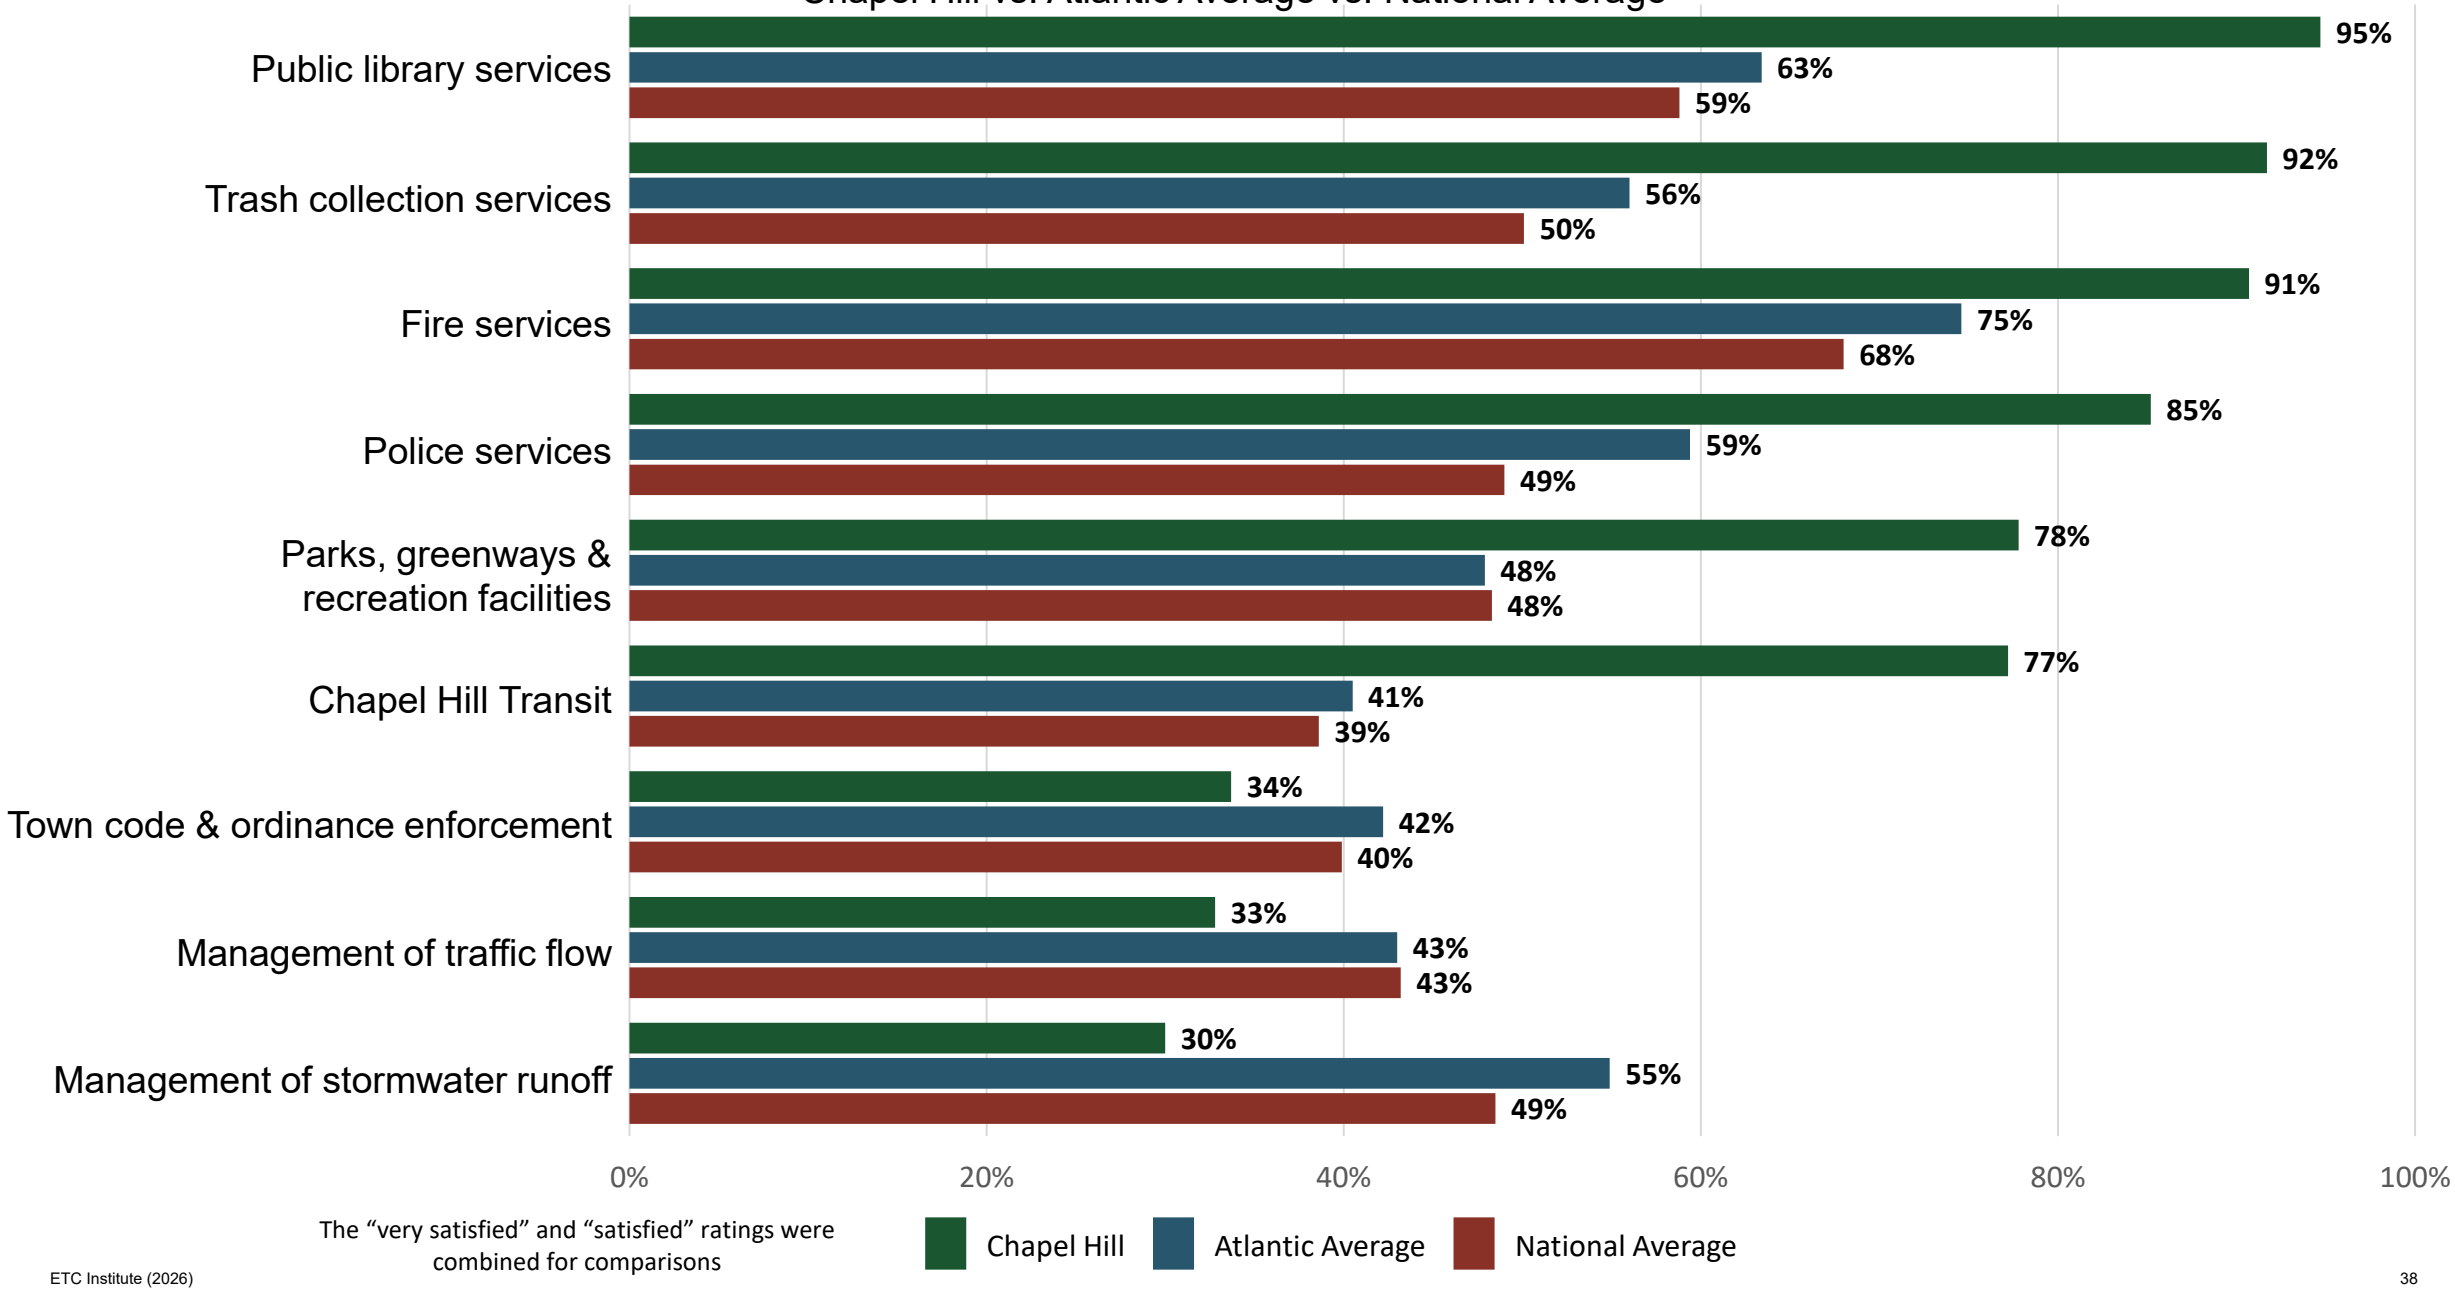

- Washington D.C.
- Delaware
- Maryland
- North Carolina
- Virginia
- West Virginia

The charts on the following pages show how the results for the Town of Chapel Hill compare to the national average, and the Atlantic Average. The combined percentage of respondents who reported being "very satisfied" or "satisfied" is used to facilitate meaningful comparisons across items.

ETC Institute does not maintain benchmarking data for all of the items that were included in the Town's 2026 survey. Only items that ETC Institute maintains benchmarking data for are included in this section.

Q1. Major Categories Of Services

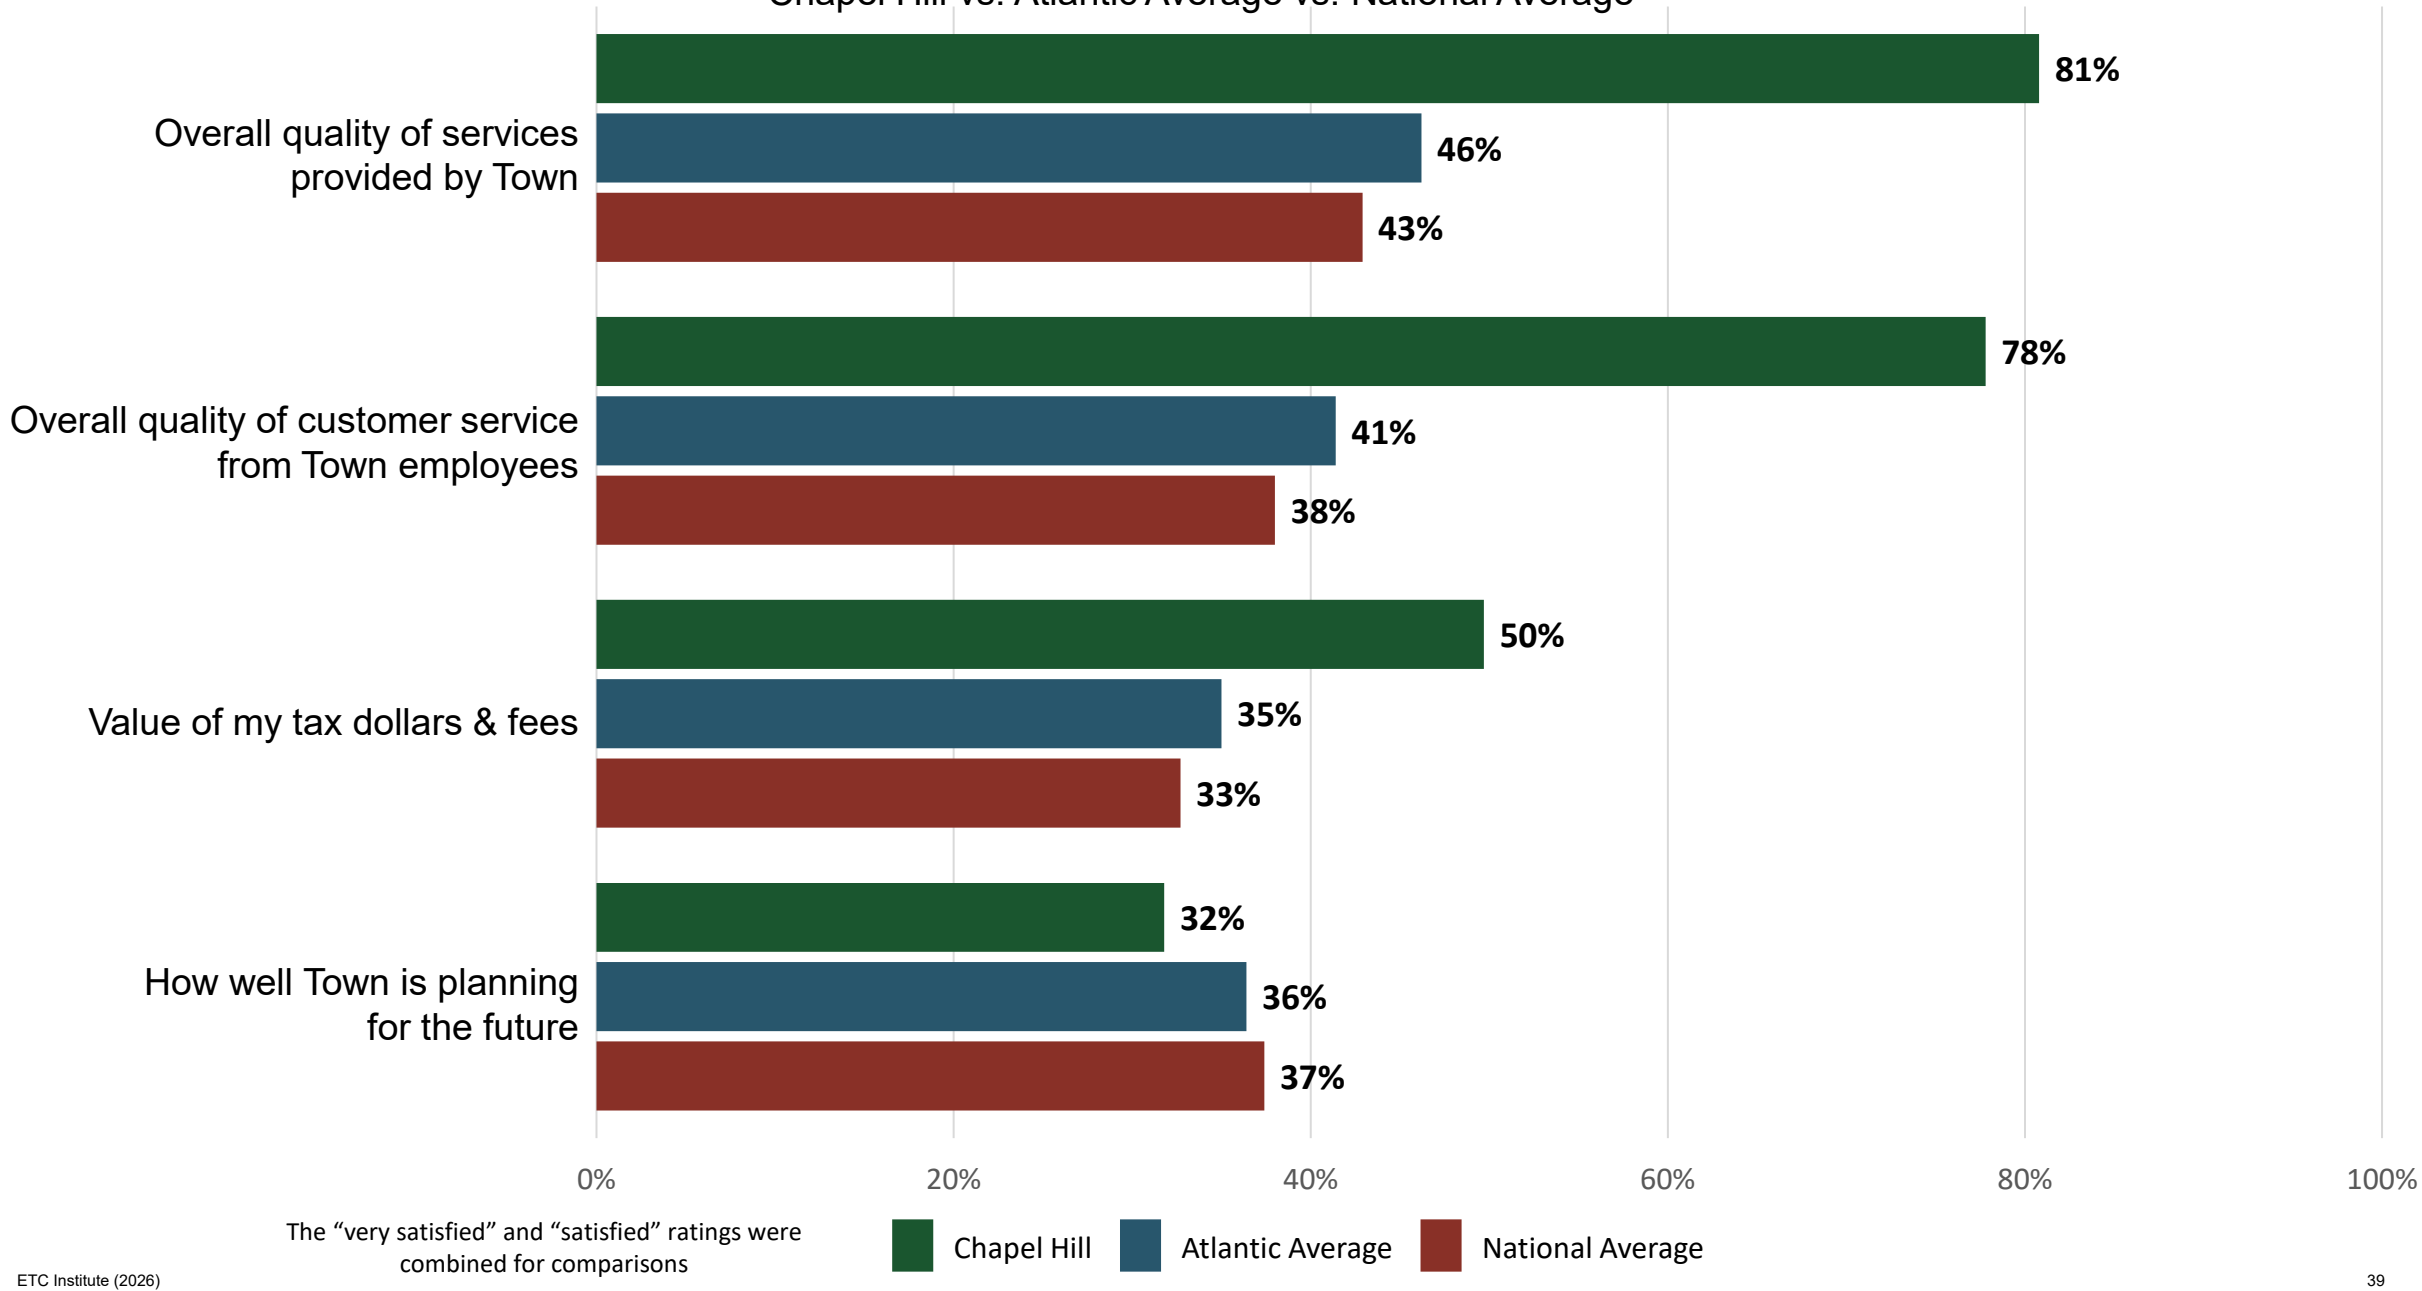

Chapel Hill vs. Atlantic Average vs. National Average

The "very satisfied" and "satisfied" ratings were combined for comparisons

Q4. Value Of Town Services

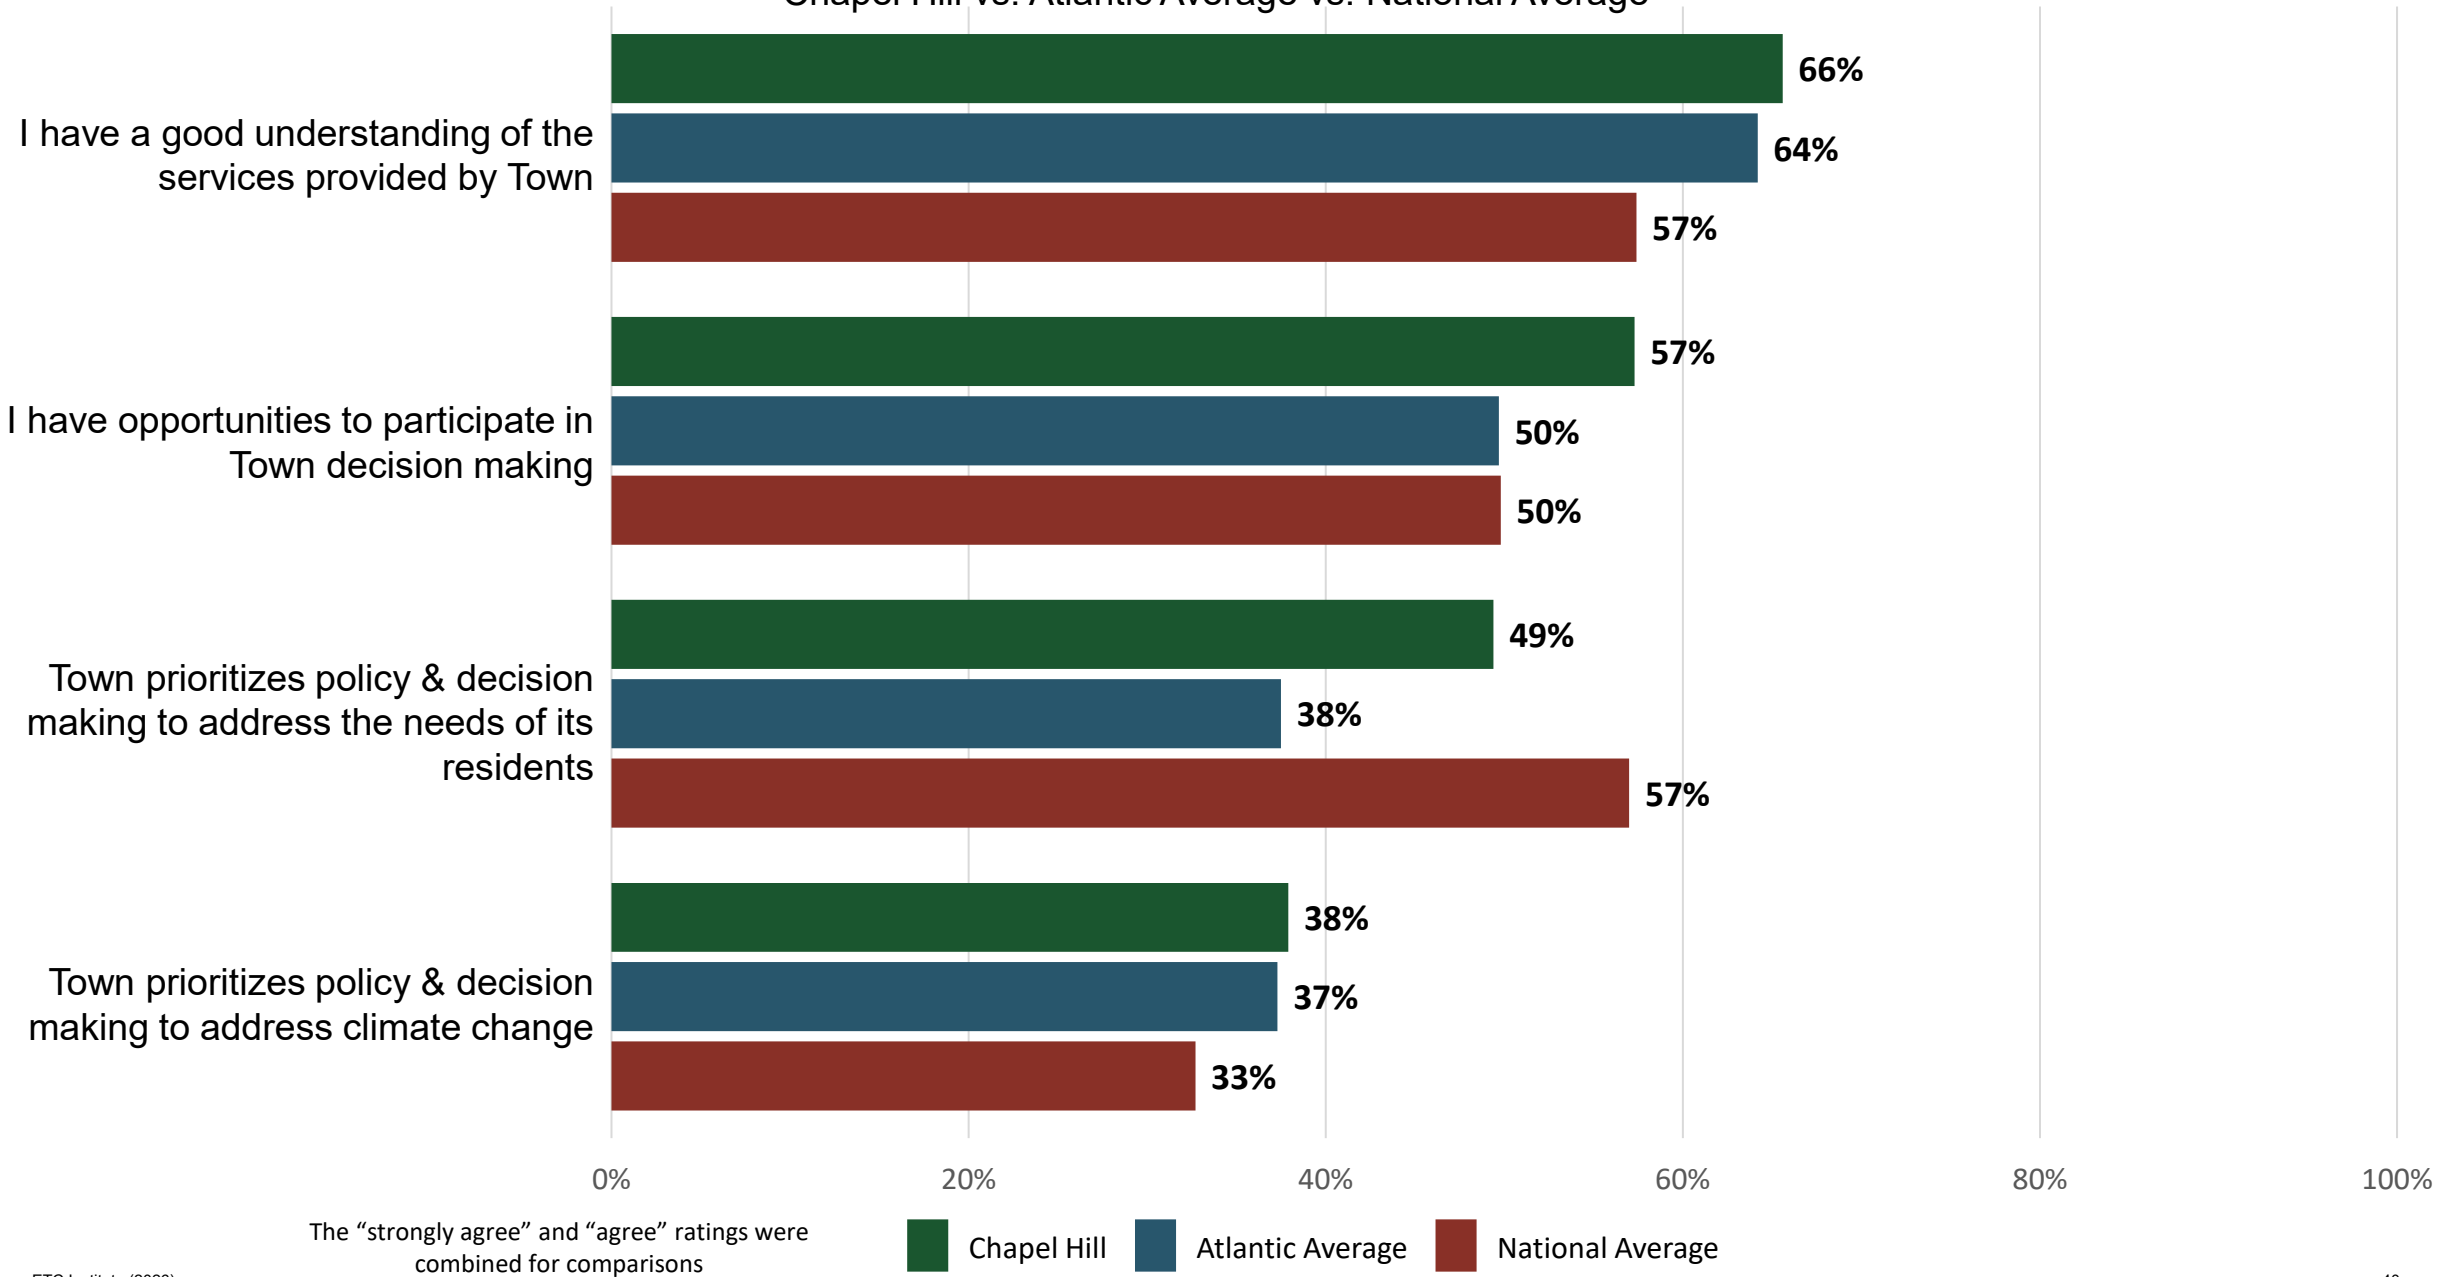

Chapel Hill vs. Atlantic Average vs. National Average

The "very satisfied" and "satisfied" ratings were combined for comparisons

Q5. Perceptions Of Town Government

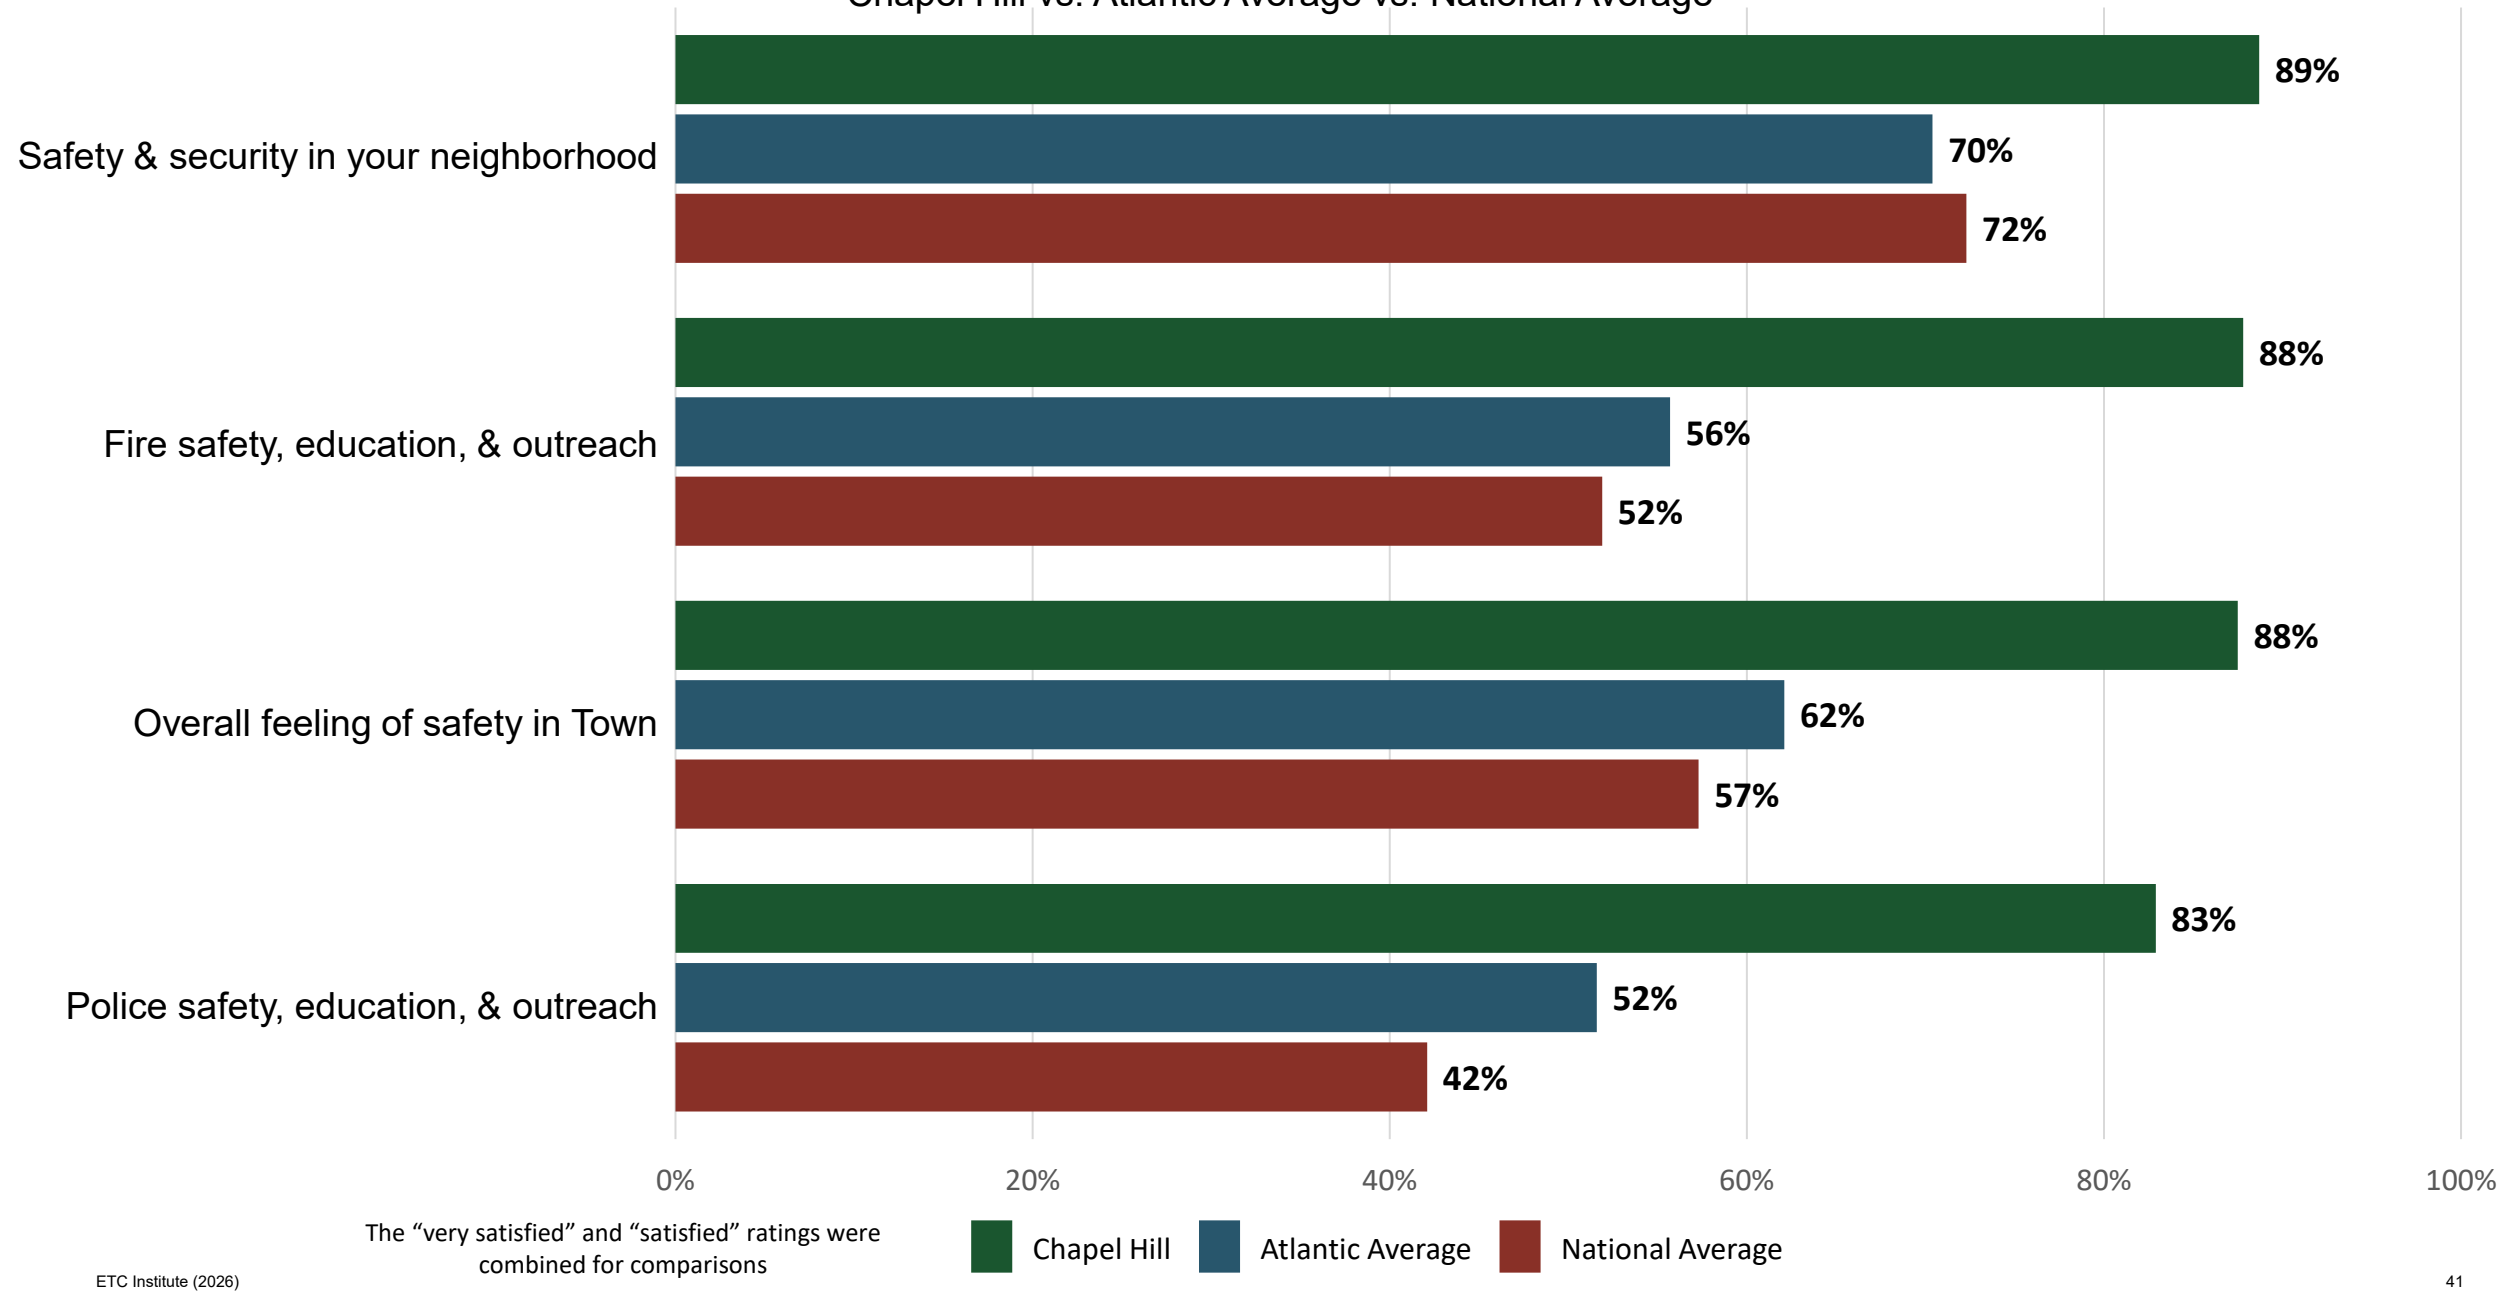

Chapel Hill vs. Atlantic Average vs. National Average

The "strongly agree" and "agree" ratings were combined for comparisons

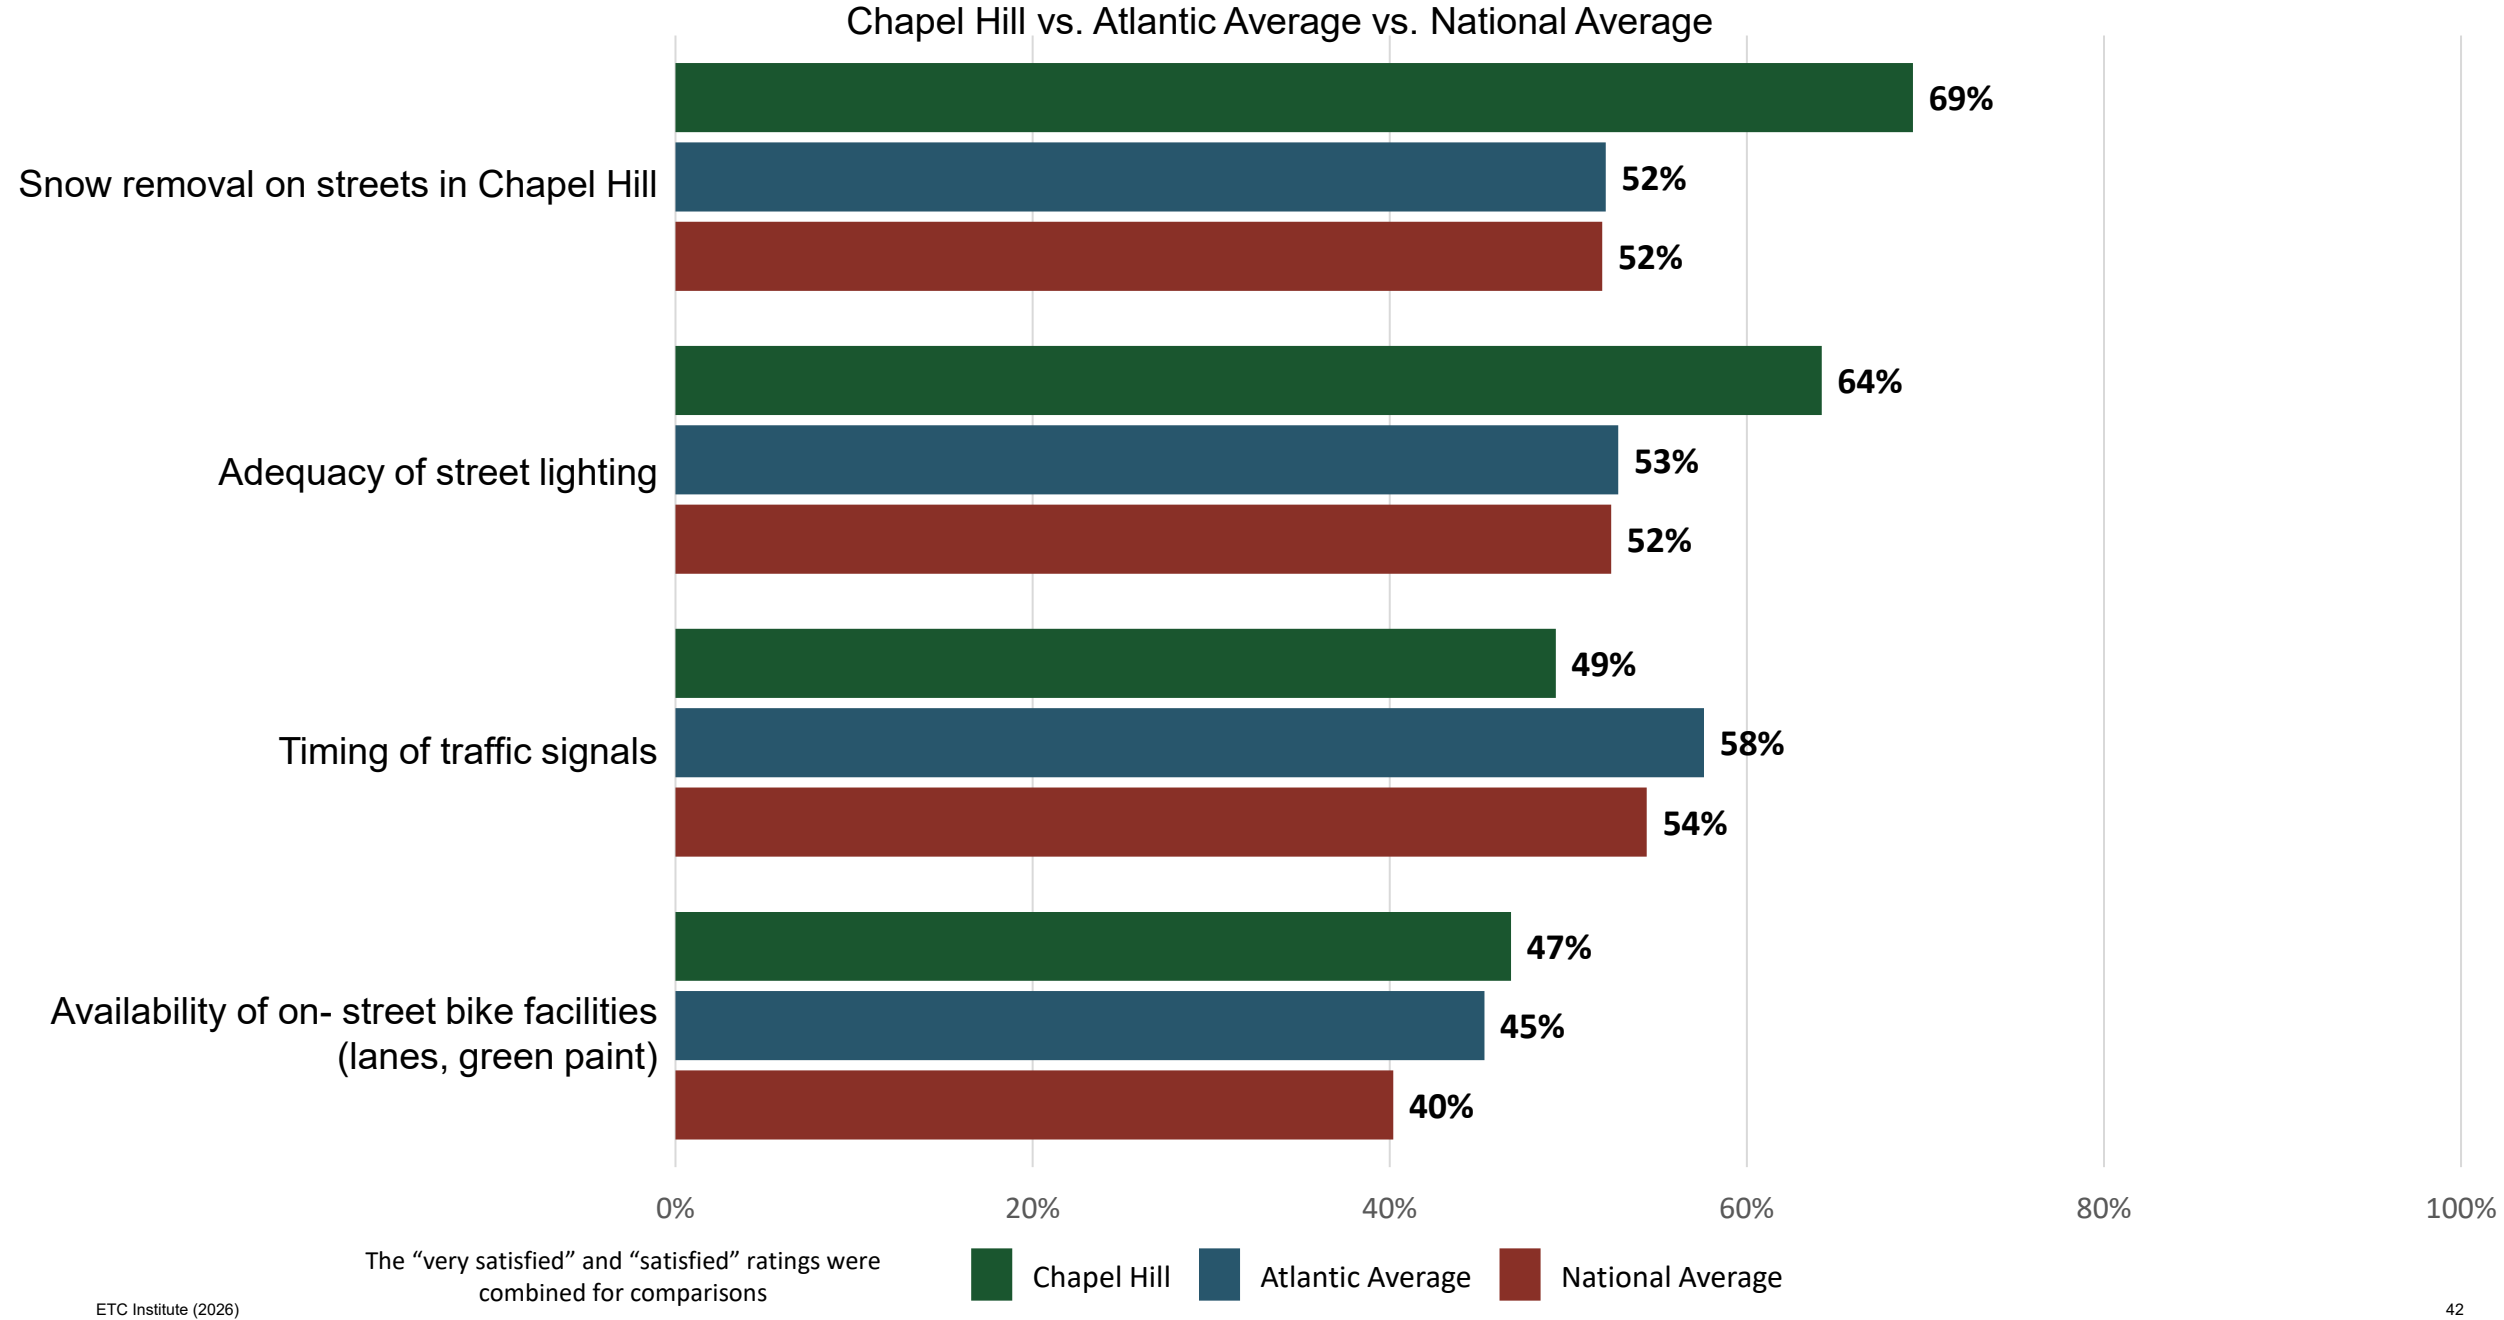

Q7. Community Safety Services

Chapel Hill vs. Atlantic Average vs. National Average

The "very satisfied" and "satisfied" ratings were combined for comparisons

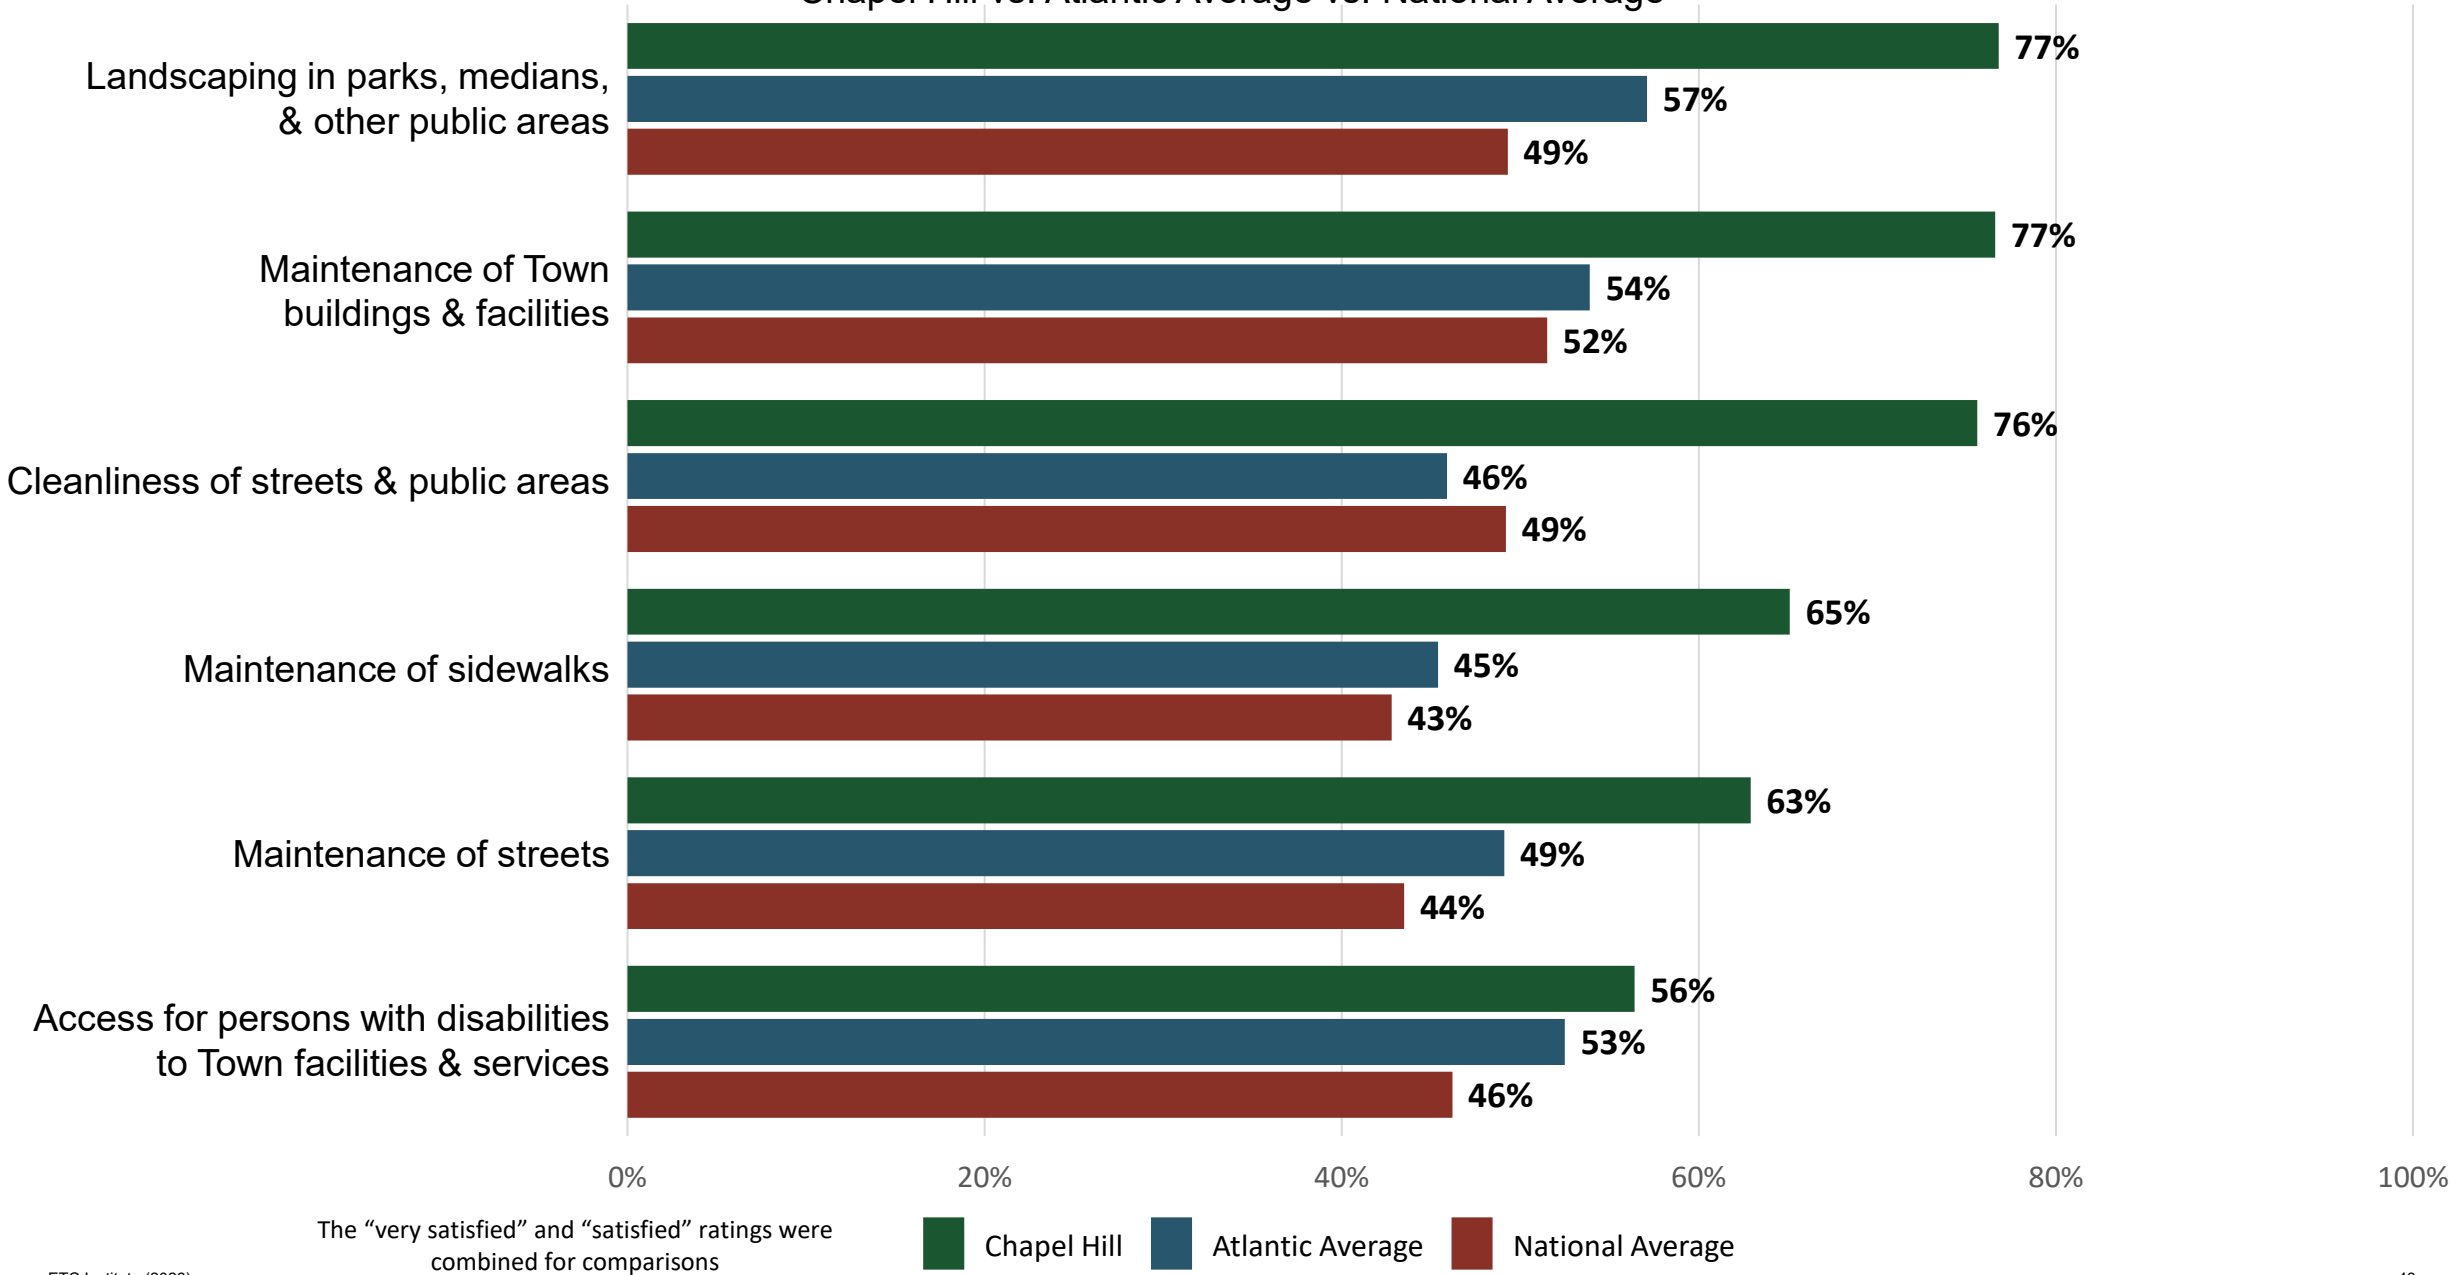

Q9. Transportation And Infrastructure

The "very satisfied" and "satisfied" ratings were combined for comparisons

Q11. Public Facilities

The "very satisfied" and "satisfied" ratings were combined for comparisons

4 Importance-Satisfaction Analysis

Importance-Satisfaction Analysis

Importance-Satisfaction Overview

Today, Town officials have limited resources which need to be targeted to activities that are of the most benefit to their residents. Two of the most important criteria for decision making are (1) to target resources toward services of the highest importance to residents; and (2) to target resources toward those services where residents are the least satisfied.

The Importance-Satisfaction (IS) rating is a unique tool that allows public officials to better understand both of these highly important decision-making criteria for each of the services they are providing. The Importance-Satisfaction rating is based on the concept that public agencies will maximize overall customer satisfaction by emphasizing improvements in those areas where the level of satisfaction is relatively low, and the perceived importance of the service is relatively high.

Methodology

The rating is calculated by summing the percentage of responses for items selected as the first, second, and third most important services for the Town to provide. The sum is then multiplied by 1 minus the percentage of respondents who indicated they were positively satisfied with the Town's performance in the related area (the sum of the ratings of 4 and 5 on a 5-point scale excluding "Don't Know" responses). "Don't Know" responses are excluded from the calculation to ensure the satisfaction ratings among service categories are comparable.

[IS=Importance x (1-Satisfaction)]

Example of the Calculation: Respondents were asked to identify the major categories of services they think are most important for the Town to provide. Thirty-four percent (33.5%) of respondents selected management of stormwater runoff as the most important service for the Town to provide.

Regarding satisfaction, thirty percent (30%) of respondents surveyed rated the management of stormwater runoff as a "4" or "5" on a 5-point scale (where "5" means "Very Satisfied") excluding "Don't Know" responses. The I-S rating for the management of stormwater runoff was calculated by multiplying the sum of the most important percentages by 1 minus the sum of the satisfaction percentages. In this example 33.5% was multiplied by 70.0% (1-0.30). This calculation yielded an I-S rating of 0.2345 which ranked first out of 19 major categories of services.

Example: Management of stormwater runoff

[33.5% x (1-30.0%)] = 0.2345

Importance-Satisfaction Analysis

The maximum rating is 1.00 and would be achieved when 100% of the respondents select an item as one of their top three choices to emphasize over the next two years and 0% indicate they are positively satisfied with the delivery of the service.

The lowest rating is 0.00 and could be achieved under either of the following two situations:

- If 100% of the respondents were positively satisfied with the delivery of the service
- If none (0%) of the respondents selected the service as one of the three most important areas for the Town to emphasize over the next two years.

Interpreting the Ratings

Ratings that are greater than or equal to 0.20 identify areas that should receive significantly more emphasis over the next two years. Ratings from 0.10 to 0.20 identify service areas that should receive increased emphasis. Ratings less than 0.10 should continue to receive the current level of emphasis.

- Very High Priority / Significantly Increase Emphasis (IS>=0.20)
- High Priority / Increase Emphasis (0.10<=IS<0.20)
- Medium Priority / Maintain Current Emphasis (IS<0.10)

The results for the Town of Chapel Hill are provided on the following pages.

6 Survey Instrument

TOWN OF
CHAPEL HILL

April 2026

Dear Community Member,

Every two years, we survey residents about our services, facilities, and programs. This gives us a broad sense about both what we're doing well and areas where we need to improve.

We listen when you tell us about areas we should focus on. In 2024, residents indicated that they wanted us to prioritize transportation infrastructure, traffic management, and planning and development services.

- Since then, we've continued planning for bus rapid transit and greenways expansion.
- We've continued to make traffic safety improvements aligned with our Vision Zero goals.
- We're close to completing our LUMO rewrite, a comprehensive update to our land use rules.

Included in this envelope is a postage-paid return envelope to ETC Institute to collect your anonymous response. You can complete this survey online at townofchapelhillsurvey.org or by phone at (888) 801-5368.

If you have questions, please contact Susan Brown, Director of Communications & Engagement at sbrown2@chapelhillnc.gov. You can learn more at www.chapelhillnc.gov/survey.

Thank you for completing the survey and helping us advance our mission of "Learning, serving, and working together to build a community where everyone thrives."

Sincerely,

Ted Voorhees
Chapel Hill Town Manager

La encuesta comunitaria es una oportunidad para expresar su opinión sobre los servicios, instalaciones y programas locales. Los resultados de la encuesta sirven de base a los procesos de planificación estratégica y de presupuestos de la ciudad de Chapel Hill. Para rellenar la encuesta en su idioma, llame a la línea gratuita de intérpretes: (844) 811-0411.

社区调查为您提供了一个表达对当地服务、设施和计划看法的机会。调查结果将为教堂山镇的策略规划和预算编制过程提供参考。如需使用您的语言完成调查，请拨打免费口译专线 (844) 872-2562.

2026 Town of Chapel Hill Community Survey

Please take a few minutes to complete this survey. Your input is an important part of the Town of Chapel Hill's ongoing effort to identify ways to improve the quality of our services. Your responses will remain completely confidential. If you don't know about a program or have not used a service, mark "Don't Know" rather than "Neutral." If you prefer to take this survey online, please visit *TownofChapelHillSurvey.org*. Thank you for your participation!
